Deregistration Conditions

Because of the privacy law it is not possible for INPUT to use the database of Tilburg University to see if members have graduated or quit with the study. Do you want to stop your membership? This can only be done by completing the deregistration form. If you want to stop your membership, you have to do this before the 1st of October of the following academic year. Otherwise, your membership will automatically continue. For example, if you want to stop your membership for the year 2026-2027, fill this deregistration form in before the 1st of October 2026.

Pay attention! Deregistration for this academic year (2025-2026) was possible until the 30th of September 2025. If you deregister after this date, your deregistration will be done by the next academic year, 2026-2027.
